Panel de Alarma Cloud Híbrido

Comunicador 3G/4G incluido

INCLUYE **2** AÑOS
ILIMITADO
3G/4G

PRO4GEN2 – Panel de Alarma Hibrido

8 zonas Cableadas
y 32 Inalámbricas

Eventos Ilimitados.

Cobertura GSM 3G/4G

Administración
totalmente vía WEB

Aplicación celular
sin costo

Enrolamiento de
zonas inteligente

PRO4GEN2– Ventajas en el Mercado Actual

- Aplicación Celular para Usuario final sin costo.
- Disponible para IOS y Android.
- Armado y Desarmado remoto.
- By Pass de Zonas en fallo.
- Notificaciones en Tiempo Real o Email.
- Log de Eventos.
- El costo mas redituable y accesible para las centrales de Monitoreo
- Formato Universal y Estándar Contact ID
- Programación Totalmente VIA WEB
- Salida Auxiliar y PGM
- Reportes ilimitados.
- Logotipo de APP personalizado e información de contacto.
- Eventos ilimitados a CMS.
- Plataforma amigable de administración.
- Cancelar las notificaciones y servicio en dado caso que fuese necesario.

Configuraciones Generales

●Configuraciones Generales – Plataforma M2M

Se deben solicitar credenciales de Acceso directo a ingeniería en el departamento de intrusión.

Solo se necesitan los siguientes datos:

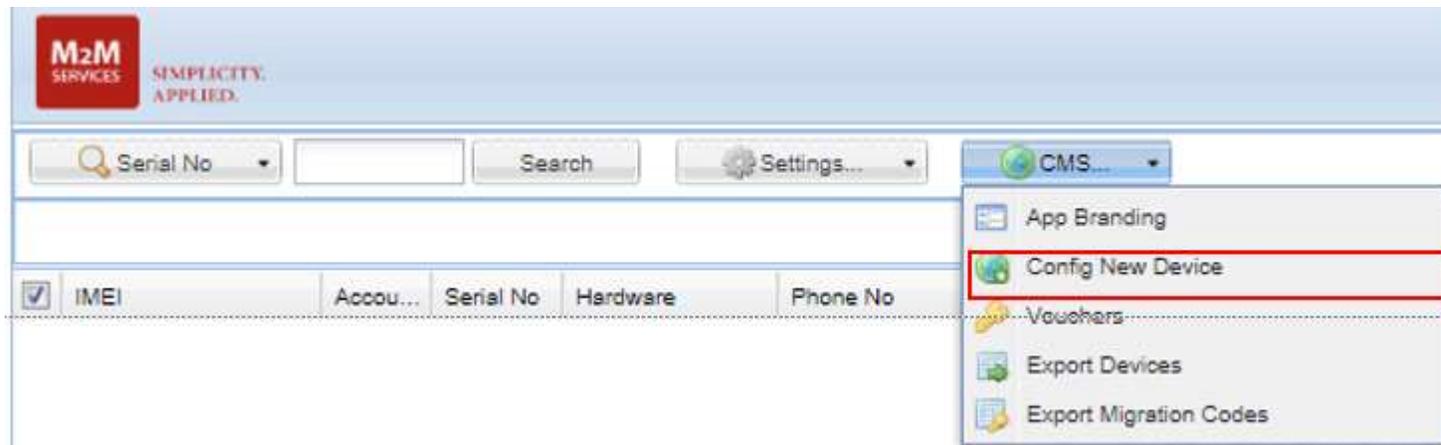

- No. Cliente
- Nombre Empresa
- Correo Contacto

<https://m2mservices.com/admin>

●Configuraciones Generales – Plataforma M2M – Añadir equipo

Una vez dentro de la plataforma nos colocamos en la pequeña pestaña de CMS y al presionar nos aparecen varias opciones, damos click en donde dice **Config New Device**.

●Configuraciones Generales – Plataforma M2M – Añadir equipo

Nos aparece una nueva pestaña, colocamos el **numero de serie del equipo** y el **Config Key** que contiene el equipo al momento de adquirirlo, guardamos y listo, nuestro panel de alarma esta agregado en la plataforma.

Configuraciones Generales – Plataforma M2M – Añadir equipo

- Al adquirir tu Panel de Alarma, este viene con unas etiquetas donde se especifican datos del panel de alarma.
- A su vez contiene las credenciales con las cuales nos vamos a loggear en la Aplicación Rcontrol.
- Por ultimo tenemos el “CMS Key” y “Config Key” que son esenciales para poder registrar nuestro comunicador en la plataforma de M2M y asi poder administrarlo.

Doble Clic

●Configuraciones Generales – Datos Panel

The screenshot shows the 'General Settings' page for an RCAlarm system. The interface includes a navigation menu with options like 'Modules', 'Partitions', 'Zones', 'RF Zones', 'Key fobs', 'Outputs', and 'Users'. The main content area is divided into sections: 'Alarm Settings', 'Main Power', and 'Battery'. Red boxes highlight specific input fields, and red arrows point from these fields to descriptive text boxes. The 'Account No.' field is set to '0000', 'Test Interval' to '43200 Sec', 'Main Power Delay' to '5 Sec', 'Battery Low' to '10.8 V', and 'Battery Critical Low' to '8 V'. A checked checkbox 'Auto shutdown when battery critical low' is also visible.

Annotations and their corresponding values:

- No. Cuenta para Central de Monitoreo:** 0000
- Intervalo de comunicacion Test (segundos):** 43200
- Tiempo de retardo para evento de perdia de AC:** 5
- Nivel de Voltaje de bacteria para que mande evento:** 10.8
- Nivel critic de bateria:** 8

The image displays three screenshots of the PRO4GLTEM mobile application interface, illustrating key features and navigation options:

- Home Screen:** Shows the main dashboard with a search icon, a refresh icon, and a user profile icon in the bottom navigation bar. A red box highlights the user profile icon.
- Main Dashboard:** Shows the main dashboard with a hamburger menu icon and a settings gear icon in the top right corner. Red boxes highlight these icons.
- Configuración de dispositivo:** Shows the device configuration screen with options like Notificaciones, Armado / Desarmado Remoto, Usuarios, Etiquetas, and Diagnóstico de dispositivos. A red box highlights the entire content area.

En esta ventana podremos hacer lo siguiente:

- Activar notificaciones del panel de alarma hacia el celular.
- Habilitar armado / desarmado
- Ver usuarios del Panel
- Modificar etiquetas de Particiones, Zonas y usuarios.
- Diagnostico rápido del equipo.
